

CURRICULUM VITAE

| | | | |
|-----------------------|---|----------------|----------------|
| SPECIALIZATION | Arctic ecology, population ecology and monitoring, environmental pollutants, fieldwork planning and logistics, natural resource and protected area management, applied databases/GIS, development programme design, tendering and evaluation, physical geography and natural hazards, disaster preparedness, training programmes/capacity building. | | |
| DATE OF BIRTH | 1957.07.10 | | |
| NATIONALITY | Danish | | |
| CIVIL STATUS | Divorced, no children | | |
| EDUCATION | Ph.D. in Arctic Ecology, University of Copenhagen, Denmark, 1995 M.Sc. in Biology and Chemistry, University of Roskilde, Denmark, 1987 | | |
| LANGUAGES | <i>Speaking</i> | <i>Reading</i> | <i>Writing</i> |
| | Danish | Mother tongue | |
| | English | Fluent | Fluent |
| | Spanish | Fair | Fair |
| | French | Poor | Poor |
| | German | Poor | Poor |
| | Greenlandic | Poor | |

KEY QUALIFICATIONS

Extensive experience in applied environmental studies, including arctic population ecology, natural resource use and biodiversity monitoring, protected area management, and effects of pesticide use. Experience in Arctic field work and logistic planning obtained through 24 years of work on ecology, impact assessments and natural resource management. Experience in advanced data analysis and structuring biodiversity databases/GIS through ecological monitoring and research in arctic, temperate and tropical terrestrial, coastal and marine environments. Skilled in project identification, design, tendering and management. Ample insight in NGO/GO organizational structures and cooperation from Denmark and extended work in Asia, Africa and the Arctic. Skilled lecturer/trainer from international conferences, teaching at university and high school level, training of National Park staff in Nepal, Malaysia, Lithuania and Latvia, and of Red Cross teams in natural hazards identification and mapping in the Philippines, Vietnam and Mozambique.

| | |
|--------------------------|---|
| OTHER EXPERIENCES | Completed courses in Logical Framework Approach (LFA), GIS applications, computerized statistical data analysis (SAS). Served in the Royal Danish Air Force 1978-79. Photographer, member of the Biofoto agency 1987-2003 Scientific referee for National Science Foundation (USA), University of Copenhagen, Norwegian Research Council, Commission for Scientific Research in Greenland, and several scientific journals, including <i>Auk</i> , <i>Arctic</i> , <i>Condor</i> , <i>Deep Sea Research</i> , <i>Journal of Marine Systems</i> , <i>Medmaravis</i> , <i>Polar Biology</i> , <i>Polar Research</i> , <i>Waterbirds</i> Member of Scientific Committee for the Danish Ornithological Society, and member of the editorial board of the scientific journal <i>Dansk Ornitologisk Forenings Tidsskrift</i> Co-leader of annual (1981-2003) surveys of Peregrine Falcons in South Greenland, focusing on adult female turnover, reproductive success, and monitoring pesticide levels (www.vandrefalk.dk) 25 years of experience in mountaineering techniques to get access to the large falcon and seabird cliffs in Greenland. |
|--------------------------|---|

PROFESSIONAL EXPERIENCE RECORD

| <i>Period</i> | <i>Employer</i> | <i>Main activities</i> |
|---------------|--|--|
| 2003 - | Danish Red Cross (DRC), International Department | Internal Advisor in Disaster Preparedness (DP); responsible for DP strategy development and technical support to DP activities in DRC-supported development programmes. |
| 2001 - | Free lance consultant (during unpaid leave periods) | Short-term consultancy services to Hedeselskabet M&E, Danish National Environmental Research Agency, Danish Polar Center, Greenland Institute of Natural Resources |
| 2001 - 2003 | Danish Polar Center (DPC), Ministry of Science, Technology and Innovation, Copenhagen | Research Facilitator, responsible for promoting Danish-Greenlandic research and collaboration with international agencies and EU; drafting long-term research strategies for joint global-change related programmes etc. |
| 1987 – 2001 | Ornis Consult Ltd, Environmental Consultants, Copenhagen, Denmark | See selected assignments below. Project Manager and Senior Scientist. Project evaluation and management, nationwide nature monitoring programmes, management of Protected Areas, natural resource management, impact assessments, biodiversity mapping, database/GIS applications, physical geography and natural hazards, training programmes and capacity building |
| 1994 – 99 | University of Copenhagen, Denmark | Annual lecturer in graduate courses; served as external supervisor and referee in M.Sc. projects |
| 1987 | Danish National Science Foundation | Senior Scientist: Research on ecology and pollutant effect in ecosystems |
| 1987 | Copenhagen Municipality | Teacher: Environmental training at high school level |
| 1986 – 1987 | Danish Labour Inspection Service | Assistant: Evaluation and approval of chemical substances in workers' environment |
| 1986 | University of Roskilde | Assistant Lecturer: Ecology and pollutants |

SELECTED ASSIGNMENTS

Arctic

Greenland

Project Scientist: analysis of long-term trends (1981-2002) in organic pollutants and eggshell thickness in Greenlandic Peregrine Falcons. National Environmental Research Institute, (DANCEA funding). 2002-04.

Greenland

Project Scientist: on 3-year-project on assessing eider duck lead pellet infliction rates and the related effects on the shared Canadian-Greenlandic population. Greenland Institute of Natural Resources (DANCEA funding), 2001-2004.

Greenland

Project Manager: General support to natural resource management projects in Greenland's Department of Environment and Nature. Greenland Home Rule. October 1999 - ongoing.

Greenland

Project Manager: Drafting of a Sector Programme Document regarding principles for local management of renewable resources. Greenland Home Rule, August – September 1999.

Greenland

Project Manager: Preparation of CITES information campaign in Greenland. DANCEA support to Greenland Home Rule. The Danish Ministry of Environment, September 1999 - 2001.

Greenland

Project Manager and Principal Investigator (Doctoral and Post-doctoral research, and M.Sc. supervisor role): Basic research projects on ecosystems in high-arctic polynyas. Various external funding sources, 1992-1998.

Greenland

Project Manager: on 3-year-projects on monitoring and management of harvestable seabird resources. DANCEA, The Danish Ministry of Environment, 1994-97.

Greenland

Representative for Greenland Home Rule: Observer on behalf of Greenland Home Rule, Department of Environment and Nature, at Conservation of Arctic Flora and Fauna conferences (Iceland, Canada, Norway, Finland, Greenland, Alaska). Greenland Home Rule 1995-2003.

Greenland

Project Manager: on 2-year project on population census of eider populations in NW Greenland. DANCEA, The Danish Ministry of Environment, 1997-98.

Greenland

Project Coordinator: Establishing a computerized database/GIS Seabird Colony Register for assessing impacts of mineral resource extraction, and in monitoring population trends for harvested species. Greenland Environmental Research Institute, 1992.

Greenland

Research Assistant: Stock assessments of Caribou in West Greenland. The Greenland Home Rule Government, 1990.

Greenland

Research Assistant: Stock assessments of whales along West Greenland. The Greenland Fisheries Research Institute, 1989.

Greenland

Project Manager and Principal Investigator: Assessment of human induced mortality factors for seabird resources in Greenland. The Zoological Museum, University of Copenhagen, 1989.

Canada

Project Scientist: joint field work in Hudson Strait region with researchers from Canadian Wildlife Service, preparing for integrated studies on wildlife resources shared between local people in the Arctic nations. DANCEA (Danish Cooperation for Environment In the Arctic), June 1996.

International**Mozambique**

Technical team member, internal Danish Red Cross review of Community-based Disaster Preparedness Programme implemented by Mozambique Red Cross Society. Danish Red Cross, March-April 2003; September 2004.

Vietnam

Team Member, Mid-term evaluation of Disaster Preparedness Programme of Danish and Vietnamese Red Cross, June 2003.

Vietnam

Trainer to 'Environmental Programme' staff of Danish and Vietnamese Red Cross in natural hazard recognition and resource/hazard mapping in local coastal communities. Danish Red Cross, Hanoi, November - December 1998.

Indonesia

Inception Workshop facilitator, Danish Red Cross and Indonesia Red Cross Community-based Disaster Preparedness Programme, May 2004

Philippines

Resource Person, Final Evaluation Mission on the Integrated Community Disaster Planning Programme with the Philippine National Red Cross. Danish Red Cross, April 2004.

Philippines

Team leader: Editor and co-author of international publication regarding Community-based Disaster Preparedness – lessons learned in the Philippines. Danish Red Cross, April – July 2002.

Philippines

Team Leader: Design mission on disaster preparedness programmes 2001-2003 with the Philippine National Red Cross. Danish Red Cross, October – November 2000.

Philippines

Review Mission on the Integrated Community Disaster Planning Programme with the Philippine National Red Cross. Danish Red Cross, November 1999.

Philippines

Review Mission on the Integrated Community Disaster Planning Programme with the Philippine National Red Cross. Danish Red Cross, January - February 1999.

Philippines

Training supervisor on course for Philippine National Red Cross staff in natural hazard identification and resource/hazard mapping in local communities of the Philippines (support to the project Integrated Community Disaster Planning Programme). Danish Red Cross, April – May 1998.

Philippines

Mid-term Review Mission on the Integrated Community Disaster Planning Programme with the Philippine National Red Cross. Danish Red Cross, October 1997.

Philippines

Trainer of Philippine National Red Cross staff in natural hazard identification, disaster preparedness, resource/hazard mapping in local mountain and coastal communities, mapping of mangrove forests and coastal community resources of the Philippines (support to the project Integrated Community Disaster Planning Programme). Danish Red Cross, January - February 1997.

Malaysia

Biological Survey and Monitoring Specialist: Management of Krau Wildlife Management. DANCED, May 1999 – April 2000.

Malaysia

Team Leader: Appraisal of DANCED project *Support to Wildlife Master Plan Implementation Through Improved Management of Totally Protected Areas*, Sarawak, Malaysia. DANCED, October 1999.

Malaysia

Team member (ecologist) on Project Idea Formulation mission, Sarawak, Malaysia. DANCED, March – April 1998.

Uganda

Team member, Review of Disaster Preparedness Programme, Danish, British and Uganda Red Cross, April 2004.

Kenya

Team leader, Review of Disaster Preparedness Programme, Danish, British and Kenya Red Cross, February – March 2004.

Senegal

Ecologist in a multidisciplinary Participatory Rural Appraisal mission to Fulani villages in the Ferlo region, Senegal, in cooperation with IUCN/Senegal and Department of National Parks. DANIDA (Danish International Development Agency), March 1996.

Senegal

Project Scientist: Organizing, testing and performing surveys of biodiversity in the Sahel zone of Senegal, in cooperation with IUCN/Senegal and Department of National Parks. DANIDA (Danish International Development Agency), January-February 1996.

Nepal

Project Coordinator: Technical assistance, including 1) external project coordination and management, 2) preparation of a biodiversity conservation and management database/GIS by coordination of efforts of the governmental Department of National Parks and Wildlife Conservation, IUCN and other local and international NGOs, and 3) preparing implementation phase of biodiversity database. DANIDA (Danish International Development Agency), 1992-1993 (5 months).

Nepal

Project Coordinator, second phase of biodiversity survey database project: Technical assistance, including 1) planning and performing biodiversity surveys for Protected Areas, 2) training national park staff in biodiversity mapping and survey procedures, 3) planning implementation of GIS in local protected area management, and 4) preparing plans and project proposals for long term implementation of biodiversity information system application in protected area management and in trans-boundary collaboration with Tibet on regional biodiversity conservation efforts. DANIDA (Danish International Development Agency), 1993-1994 (6 months).

Lithuania

Support to EU approximation regarding implementation of the EU Habitat Directive. DANCEE, Danish Ministry of Environment, May – June 2000.

Latvia

Trainer for Regional Environmental Inspectors and National Park Staffs at 'EU approximation project: Species and Habitats Project', DARUDEC / Danish Ministry of Environment, March – April 1999.

Latvia

Project Appraisal on Kemer National Park Management Plan, Danish Ministry of Environment, March 1999.

Hungary

Project formulation and tendering for EU Phare programmes. European Commission 1990 and 1991.

Denmark

Project Coordinator: Monitoring of bird populations in the 111 Danish Special Protected Areas (Wetlands, SPAs according to the EEC Bird Directive) including data from 80 field observers, governmental agencies and research stations. Evaluation of the environmental status of each area and identification of necessary management or research activities. The Danish Ministry of Environment, 1987-1989.

Project Coordinator: Land use and protected area management in SW-Denmark - background studies for development of specific management plans. Danish Ministry of Environment and Council of Ribe 1990-91.

Project Coordinator: Evaluation of a habitat restoration project in the Danish Waddensea. Danish Ministry of Environment, 1991-1992.

Project Coordinator: Nature monitoring and preparation of management plans for protected wetlands in East Denmark. Copenhagen Council, 1987-1993.

Project Scientist: Research on effects of pesticide use in Danish farmland. The Danish Ministry for the Environment, 1992-1994.

Consultant: Reevaluation of an EIA of construction activities of the Øresund Link. CASA, 1991.

Consultant: Environmental impact assessment of construction activities of the Øresund Link: effects on wildlife along the Swedish coast. COWIconsult, 1992.

List of publications

Manuscripts submitted (in review) and in press

- 1) Falk, K., Møller, S. & Mattox, W.G. (submitted): A long-term increase in eggshell thickness of Greenlandic Peregrine Falcons *Falco peregrinus tundrius*. *Science of the Total Environment*.
- 2) Irons, D.B., Anker-Nilssen, T., Gaston, A.J., Byrd, G.V., Falk, K., Gilchrist, G., Hario, M., Hjernquist, M., Krasnov, Y.V., Mosbech, A., Reid, J., Robertson, G., Olsen, B., Petersen, A., Strøm, H. & Wohl, K. (submitted): Climate change causes circumpolar seabird populations to be in constant flux. *Nature*.
- 3) Falk, K., Merkel, F.R., Kampp, K. & Jamieson, S.E. (in press): Embedded lead shot and infliction rates of Common and King Eiders wintering in Southwest Greenland. *Wildlife Biology*.
- 4) Merkel, F.R., Falk, K. & Jamieson, S.E. (in press): Impact of embedded lead shot on body condition of common eiders. *J. Wildl. Manage.*
- 5) Jamieson, S.E., Gilchrist, H.G., Merkel, F.R., Falk, K. & Diamond, A.W. (in press): An evaluation of methods used to estimate carcass composition of Common Eiders. *Wildlife Biology*.

Peer-reviewed papers

- 73) Falk, K., Jensen, F.P. & Petersen, B.S. 2004: Migration of Abdim's Storks tracked by satellite - preliminary results. Poster presented at Waterbirds Around the World, Global Flyways Conference 3-8 April 2004 Edinburgh UK. Wetlands International.
- 74) Merkel, F.R., Falk, K., Johansen, P., Kampp, K. & Jamieson, S.E. 2004: Lead shot hunting of Common Eiders in Greenland: Impacts on eiders and human health. Poster presented at Waterbirds Around the

- World, Global Flyways Conference 3-8 April 2004, Edinburgh UK. Wetlands International.
- 75) Jamieson, S.E., Gilchrist, H.G., Merkel, F.R., Falk, K. & Diamond, A.W. 2002: Endogenous Reserves Dynamics of an Arctic Population of Common Eiders During the Non-breeding Season. Poster presented at 2002 North American Sea Duck Conference and Workshop, 6-10 November 2002.
- 76) Hobson, K.A.; Gilchrist, G.; Falk, K. 2001: Isotopic investigations of seabirds in the North Water polynya: Contrasting trophic relationships between the eastern and western sectors. Poster presented at the International Polynya Symposium 2001, Quebec City 10-14 September 2001.
- 77) Falk, K., Nielsen, P. & Durinck, J. 1995: Murre hunting in West Greenland. Poster presented at the 5th International Seabird Conference, Glasgow, 24-26 March 1995.
- 78) Benvenuti, S., Dall'antonia, L., Falk, K., Gudmundsson, G.A., Kampp, K., & Ribolini, A. 1998. Foraging behaviour of breeding Brünnich's Guillemot (*Uria lomvia*) as revealed by bird-borne data loggers: an intercolony comparison. Poster presented at the Italian Ecological Society, Urbino, September 1998.

Conference contributions – major presentations

- 79) Falk, K., Gilchrist, G., Hobson, K.A., Benvenuti, S. & Egevang, C. 2001: Breeding ecology of seabirds indicate contrasting foraging conditions between the eastern and western sectors of the NOW polynya. Oral presentation at International Polynya Symposium, Quebec City, 10-14 September 2001.
- 80) Falk, K. 2001: Seabirds as ecosystem monitoring tools. Oral presentation at "Ecosystem West Greenland" workshop, Greenland Institute of Natural Resources, Nuuk 29 November - 4 December 2001.
- 81) Falk, K. 2001: North Water Polynya Programme: lessons learned. Oral presentation at "Ecosystem West Greenland" workshop, Greenland Institute of Natural Resources, Nuuk 29 November - 4 December 2001.
- 82) Falk, K. 2000: Preliminary findings: Contrasting seabird ecology in eastern and western parts of the North Water polynya. Oral presentation at Polynya Workshop, ASLO meeting Copenhagen 2000.
- 83) Karnovsky, N.J., Hunt, G.L., Jr, Fortier, L., Falk, K. & Hobson, K.A. 2000: Estimating the export of carbon through marine birds in the North Water. Presentation at ASLO conference, Copenhagen 2000.
- 84) Falk, K. 1995: Oral presentation on 'seabirds utilizing the Northeast Water polynya' at the International NEW polynya symposium, Elsinore, May 1995.
- 85) Falk, K. Oral presentations on seabird monitoring and ringing programmes, Circumpolar Seabird Working Group, Nuuk (1996), St. Johns (1997), Akureyri (1998).
- 86) Falk, K. 1989: Oral presentation on seabird net-entanglement in West Greenland, Memorial University, St. John's, Canada, 1989 (Falk & Durinck 1991).
- 87) Falk, K. & Møller, S. 1985: Oral presentation on the Peregrine Falcon population in Greenland at the International Peregrine Conference, Sacramento, California 1995 (Falk & Møller 1988).
